

The new Alpine Auto range of heaters are exclusive from the original Airo models. I.e.: You cannot use an Alpine Auto heater in a standard MV Airo Heater installation, or visa versa.

The following parts must be used together, otherwise the heater will not operate.

**1) MV Airo Alpine Auto Heater**  
(Identified by Yellow Plateau Sticker)

**2) MV Airo Alpine Timer Box**

**3) MV Airo Alpine Wiring Loom**

**2A) Timer Box Connections**

**3A) Wiring Loom Connections**
